

Firm and Nourish Moisturiser

Introduction

I recently re-formulated this product after discovering hyaluronic acid (also known as the fountain of youth) and cucumber extract (contains a host of ingredients to support the skin at a cellular level). It is one of my favourite products and is very popular with my customers.

Skin Type

This is a lovely product for dry, dehydrated or mature skin but can be used if you have normal skin.

Ingredients and benefits

Containing Cucumber Extract, Hyaluronic Acid, Arctic Cranberry Seed Extract, Pumpkin Seed Oil, Lupine Peptides and Vitamin A, it restores suppleness and glow while nourishing, moisturising and protecting the skin. Pumpkin seed Oil is said to be firming to the skin and vitamin A helps with cell regeneration. Fragranced with a blend of Rose Geranium, Lavender, Patchouli and Ho Wood essential oils chosen for their benefits to skin function.

How to use it

Apply two pumps to the skin in upwards movements.
