

Firm and Nourish Toner

Introduction

Toners are often neglected but they are a very important part of your skincare regime. They are designed to remove any last traces of dirt or product, close the pores and bring the skin back to a healthy PH level to maintain the acid barrier, enabling your skin to protect itself.

Skin Type

This is a lovely product for dry, dehydrated or mature skin but can be used if you have normal skin too.

Ingredients and benefits

This product is alcohol free and is gentle on the skin. Containing Panthenol, Rose water and an of a South African plant called Spilanthes Acmella, the product restructures, firms and smooths the skin, increases elasticity. Also Contains Cucumber Extract which contains a host of ingredients to support the skin at a cellular level.

How to use it

Put two or three pumps on to dry cotton pads and apply to the skin in upward movements.
