

Soothe and Purify Mask

Introduction

An effective mask for soothing spot or acne-prone skin. It is supplied in two parts – an active formula and a pot of green clay.

Skin Type

Acne, spot, and blackhead prone congested oily combination skin

Ingredients and benefits

The product base is a synergistic blend of Wild Pansy and Chickweed extract. Thistle Oil, Vitamin A and a blend of three plant extracts from the South American Rain forests - Copaifera officinalis (balsam copaiba) resin, Carapa guaiensis seed oil, Euterpe oleracea pulp oil (tests that shown significant improvement in a variety of issues connected to “problem skin”) Together, these ingredients work towards shrinking pores, healing, cleansing and cell regeneration. Green Clay is detoxifying due to its unique blend of minerals Its composition includes dolomite, manganese, silica, copper, phosphorous, magnesium, zinc and calcium. The essential oils have been chosen for their anti-septic and soothing properties

How to use it

Put the active formula into a small container and mix with the green clay to make a paste before applying all over the face and neck. Rinse off or remove with a damp cloth after 20 minutes.
